Board of Supervisors  
County Government Center  
San Luis Obispo, CA 93408

Subject: Special Districts Proposed Budget for Fiscal Year 2021/22

The *Special Districts Proposed Budget 2021/22* is submitted for your review and consideration. The following comments are offered as background, or on specific noteworthy issues.

San Luis Obispo Flood Control & Water Conservation District

The District provides regional water resource and flood control services including studies, programs, projects, and weather and hydrological data collection and compilation (see [www.slocounty.ca.gov/slocountywater](http://www.slocounty.ca.gov/slocountywater)). Specific projects and programs benefitting the District's zones of benefit and operations are budgeted in the recipient individual funds. The District is funded from an allocation of the Countywide property taxes pursuant to Proposition 13 and related legislation.

The District's 2021/22 budget funds a range of Countywide water resource and flood control efforts divided into 5 major programs that are further described below:

A. Regional Program

Integrated Regional Water Management Program (IWRM) Includes implementing and updating the IWRM Plan, coordinating with the Regional Water Management Group (RWMG), monitoring State and funding area activities relevant to IRWM, and administration of the implementation and planning grant agreements with the State and project proponents. The District is the lead agency for the program in accordance with State regulations and the Memorandum of Understanding between the RWMG member organizations. Participation in the IRWM Program has resulted in over \$32M in grant awards for local needs.

Water Conservation Management Includes compliance with Assembly Bill (AB) 1420, which requires implementation of certain conservation best management practices (BMPs) by wholesalers. Certain BMPs are best implemented by the District on a regional basis, while others are addressed in the Flood Control Zone 3 Fund (Lopez Lake).

Regional Resiliency Addresses concerns associated with extended drought, including investigating feasibility of projects such as emergency interties and desalination as options to address drought resiliency, existing deficiencies, and future needs. This also includes costs associated with funding studies and a portion of the planning phase of the Delta Conveyance Project for the District's unsubscribed portion of the State Water Project in accordance with Board direction.

- B. Technical Program Includes ongoing hydrologic data collection and management efforts at over 400 sites, California Statewide Groundwater Elevation Monitoring (CASGEM) Program compliance efforts and a contract with the US Geological Survey to share the cost of 3 stream gauges. The data is used by entities charged with water resource management and technical analysis, including the State, Groundwater Sustainability Agencies, and other local entities.
- C. Groundwater Management Program Includes coordination with stakeholders in Basins that are subject to the Sustainable Groundwater Management Act (SGMA), and with stakeholders in other Basins as resources allow, in accordance with the County's SGMA Implementation Strategy. Additionally, helping to administer Groundwater Sustainability Agencies (GSAs), monitoring State activities, assisting with establishing formal groundwater basin boundaries with the State, and providing data and other requested technical support as resources allow in the development of Groundwater Sustainability Plans (GSPs).
- D. Watershed Management Program Includes supporting general drainage and flood control efforts such as responding to constituents, investigating drainage issues, programs, and flooding problems for all County areas, consistent with the Board of Supervisors adopted policy on surveillance of drainage and flood control problems. The intent of the program is to provide the technical support should communities wish to establish Zones of Benefit that would fund maintenance, design, and implementation of watershed/drainage/flood management projects.
- E. General Operations Includes supporting the Water Resources Advisory Committee, flood control district strategic planning and budgeting, public information requests and inter/intra-department coordination. The mission is to influence and create consistency amongst water-related policies and programs for the purpose of achieving sustainable communities in alignment with the County's values.

The budget continues to support the following efforts:

- Transfer to Zone 16 (Nipomo Drainage Basins) for additional short-term maintenance activities.
- A bridge loan to the Los Osos Wastewater System to provide for cash flow requirements, if needed. This short-term loan will be repaid with interest as the annual sewer service charge payments are received.
- Transfer to Zone 4 (Santa Maria River Levee) for increased maintenance costs over the estimate provided by the Santa Barbara County Flood Control, Water Conservation District & Water Agency.

#### Nacimiento Water Enterprise Operating Fund

The budget funds activities associated with the Lake Nacimiento reservoir lakeside users, the contract with Monterey County Water Resource Agency (MCWRA), and the delivery of Nacimiento water to the agencies participating in the Nacimiento Project.

The budget was endorsed by the Nacimiento Commission on April 22, 2021.

#### State Water Contract

#### State Water Project

The District is one of 29 State Water Contractors (SWC) that participate in the Project with the California State Department of Water Resources (DWR). Two District funds are utilized to budget the operations and obligations related to the District's allocation from DWR, and the Water Treatment and Local Facilities agreement between the District and the Central Coast Water Authority (CCWA, a joint powers agency of agencies in Santa Barbara County) which owns and operates the Polonio Pass Water Treatment Facilities.

The costs incurred for the District's "Excess Allocation" of water are budgeted in the Contract Fund, which includes full cost recovery of these pre-Proposition 13 contractual obligations from a Countywide tax allocation. The costs incurred for the water supply delivery and treatment are budgeted in the Project Fund, which is an enterprise fund and fully reimbursed by the agencies that participate in the Project. The annual budget request for CCWA Charges is reduced \$1.1 million to reflect payment in full of the bonds used to finance local facilities.

The 2021/22 budget for both funds addresses costs associated with contract management, including evaluating and responding to amendments being developed by the State related to water management, contract term and financing, and participation in the Delta Conveyance Project.

Flood Control Zone 1 (Arroyo Grande Creek Channel)Flood Control Zone 1A (Los Berros Diversion Channel of Arroyo Grande Creek)

The maintenance of the Arroyo Grande Creek and Los Berros Diversion Channels are budgeted in the District's Zone 1 and 1A funds.

The long-term plan to improve flood protection, the Waterway Management Program, was completed during the second half of 2020/21 and post construction monitoring and maintenance of the WMP projects began. Ongoing monitoring and maintenance will involve topographic survey, biological surveys, and monitoring of the stream channels to ensure flood capacity and restored habitat are maintained and will continue to provide valuable flood protection and environmental resource benefits for the community of Oceano.

The Meadow Creek Lagoon Watershed Restoration Plan also began in the second half of 2020/21 and will address long term WMP project impacts to steelhead trout, and potentially reduce flood risks to the community of Oceano. Staff will continue to pursue partnerships and grant funding for implementing project planning phases, as well as identified lagoon restoration projects in subsequent years.

Flood Control Zone 3 (Lopez Lake)

Funds Lopez Dam maintenance, water treatment, and water distribution services. Ongoing efforts include the Arroyo Grande Creek Habitat Conservation Plan (HCP) and capital outlay management.

Flood Control Zone 3 reserves include:

- #1 Contractor Funded Reserves - Financed and used by Contractors to stabilize billings in years with higher capital needs.
- #2 District Funded Operating Reserves - Held at approximately 50% of routine operations and maintenance costs.
- #3 District Funded Designated Reserves - Set aside for significant maintenance and capital costs within the Flood Control and Water Conservation District.

The Advisory Committee recommended utilizing the District Funded Designated Reserves towards Zone 3 efforts shown in the following chart. Specific requests to authorize these efforts will be brought to the Board either via the annual budget process or mid-year requests.

Flood Control Zone 3 (Lopez Lake) continued:

<b>Estimated Amount</b>	<b>District Funded Designated Reserves (#3 above) Utilization Plan</b>	<b>Status</b>
\$50,000	HCP Planning & Resulting Projects	On-going
\$350,000	Cloud Seeding	On-going
\$50,000	Feasibility Study to Decommission Terminal Reservoir	Upcoming
\$158,805	Public safety related to water quality and quantity purposes	As needed
<b>\$608,805 (projection)</b>	<b>TOTAL District Funded Designated Reserves</b>	

The FY 2021/22 proposed budget was endorsed by the Flood Control Zone 3 Advisory Committee on March 18, 2021. The budget does not reflect the fiscal challenges that each Contractor may be facing due to COVID-19.

Flood Control Zone 9

Funds flood control services for the watershed area of San Luis Obispo Creek and its tributaries.

Additional funding is being proposed for streambed maintenance activities involving vegetation management, Arundo (bamboo) eradication and silt removal in FY 2021/22. Additional funding is included for the East Fork study as cost estimates came in higher than anticipated. This study will conclude around December 2021. Preliminary design plans and certification of the Final Supplemental Environmental Impact Report (FSEIR) for the Mid-Higuera Bypass Project (located within the City of San Luis Obispo) are complete. Final design plans and obtaining regulatory permits are expected to continue during FY 2021/22.

The initial budget and work plan was reviewed and endorsed by the Flood Control Zone 9 Advisory Committee on December 9, 2020. No changes have been made to the proposed budget since this meeting.

County Service Area 7-A

Funds wastewater collections, treatment, and disposal services for the Oak Shores area, located at Nacimiento Lake.

Recently a Proposition 218 rate increase was approved. This increase has provided this fund with the necessary tools to support required operations and maintenance, allow for minor capital improvements, and maintain an adequate operating reserve balance for unanticipated costs.

County Service Area 7-A continued:

Because of the rate increase, this fund has been able to steadily increase the reserves as planned and move forward with the engineer's capital improvements plan set before the public during the Proposition 218 process.

County Service Area 10 - Parent Fund (CSA10 PF)

County Service Area 10 - Water Treatment Facility (CSA10 WTF)

County Service Area 10 - Fire Protection (CSA10 FP)

County Service Area 10 - Weed Abatement (CSA 10 WA)

County Service Area 10 - Funds energy costs for the streetlights within the Cayucos area. For FY 2021/22, there are no major capital improvement projects being proposed.

County Service Area 10 - Water Treatment Funds the operations and maintenance of the Cayucos water treatment plant. This facility provides water treatment services through interagency contracts between all the water purveyors in Cayucos. Property tax revenue in CSA 10 is used to help offset the capital outlay and increased operation costs of the water treatment plant which benefits water customers in the entire community of Cayucos.

County Service Area 10 – Fire Protection Funds the fire protection services within the Cayucos area. The County Fire Department administers and provides the fire protection services.

County Service Area 10 – Weed Abatement Funds weed abatement services within the Cayucos Area. The County Fire Department administers and operates the weed abatement program.

County Service Area 10-A

Funds water service in the Cayucos strand area.

County Service Area 10-A provides safe drinking water to roughly 800 customers within its boundaries of Cayucos. Funded by the successful proposition 218 of 2018, the County completed the Cayucos Water Tanks Project in the Spring of 2021. With this project now complete, CSA 10-A will move forward with additional major maintenance replacement efforts for wharf heads, valve clusters and new meters as well as evaluating much needed capital improvements.

County Service Area 16

Funds energy costs for streetlights and water service in Shandon.

Shandon has been paying for an annual allocation of 100 Acre Feet of State Water since the early 1990's. A policy shift took place in 2011 to utilize the allocation due to changing community desires. As a result, a connection to the State Water pipeline was completed in July 2016.

A Proposition 218 vote passed on March 24, 2020. Unfortunately, due to the COVID19 pandemic, the Board of Supervisors postponed the rate increase until 30 days after the COVID19 local emergency is lifted. The FY 2021/22 Budget includes revenue and expenses based on the assumption that we will be able to implement this rate increase. The Public Works Utilities Division worked diligently to meet sanitation and health standards for its CSA 16 water customers during this global pandemic.

County Service Area 23

Funds energy costs for streetlights, water, and drainage services in Santa Margarita.

In August of 2019, your Board approved a rate increase for water service in Santa Margarita and in 2021/22, CSA 23 will see the final of the three-part rate increase go into effect. This rate increase was designed to address ongoing increases to operations and maintenance, capital projects and increase reserves.

This budget document was prepared by the County's Public Works Department.

Sincerely,

  
JOHN DIODATI  
Interim Director of Public Works
