Subject: COI - ID 23

Your Name*	Jan Marx
Your Email	janmarx@stanfordalumni.org
Which district do you live in? If you're not sure, use our " Find my Supervisor " tool (opens in new window) to find your district*	District 5
Community Of Interest Name*	City of San Luis Obispo
What are the common interests in your community? Describe how they are important*	The City is well served by representation of three Supervisorial Districts.
Explain the geographical location of your community of interest. What are the physical boundaries?*	The city limits of the City of San Luis Obispo are the physical boundaries of our geographical location. Our greenbelt, much of which is outside of our city limits, is also an important aspect of our community of interest.
What is the rationale for your community of interest to be used in the Board of Supervisor redistricting process? Please describe how the issues before the Board of Supervisors has an impact on your community.*	It is the County Seat and the jobs and social services center of the County. As the largest city, having three Supervisors with responsibility for our City is an asset when it comes to health and human services, including dealing with the unhoused population. Reducing our representation would adversely impact our city and hamstringing our ability to access County, State and Federal funding for affordable housing and other crucial programs. Reducing our representation on the Board of Supervisors would not only negatively impact our residents, but also the residents of the County as a whole. It is important that partisan differences not be gerrymandered, so that a minority of the constituents control County policy. In other words, Supervisors Arnold, Peschong and Compton should not be allowed to gerrymander safe districts for their extreme right wing parties into the future.
What else would you like to tell us about your community?*

I have great concern that the sitting Supervisors will gerrymander the new districts to ensure their election in 2022. How can a citizen prevent that from occurring? Risa Kaiser
