

For PCBs doing a pyrethroid application with certain **active ingredients** and applying the pesticide **outdoors** to certain types of **sites** and on certain types of **surfaces**

**Outdoor Use of**

bifenthrin	esfenvalerate
bioallethrin	fenopropathrin
S-bioallethrin	tau-fluvalinate
cyfluthrin	permethrin
beta-cyfluthrin	phenothrin
gamma-cyfluthrin	prallethrin
lambda-cyhalothrin	resmethrin
cypermethrin	tetramethrin
deltamethrin	

**6970 (a) soil surface, mulch, gravel, lawn, turf, or ground cover**

- (1) spot treatment (less than 2ft<sup>2</sup>)
- (2) pin stream treatment (less than 1")
- (3) perimeter band treatment of three feet wide or less from the base of the building outward
- (4) broadcast treatment but not within 2 feet from any horizontal impervious surface (pin stream ok w/in 2 foot area).
- (5) for broadcast treatment of termiticides to preconstruction sites, prior to precipitation, the treatment area must be covered with waterproof covering, or a concrete slab must be poured over the treated soil.

**6970 (b) windows and doors, and horizontal impervious surfaces**

- (1) spot treatment
- (2) crack and crevice treatment
- (3) pin stream treatment

**Exempt Applications 6972 (a-g)**

- (a) injection into soil or structural materials
- (b) post construction rod or trench termiticide
- (c) applications to below-ground insect nests made of mud or paper combs
- (d) applications of baits in weather-proof stations or gel baits
- (e) NPDES applications with permits
- (f) applications to undersides of eaves
- (g) foggers or aerosol applications

**6970 (c) vertical structural surfaces, such as walls, foundations, and fencing**

- (1) spot treatment
- (2) crack and crevice treatment
- (3) pin stream treatment
- (4) perimeter band treatment up to a maximum height of two feet above the grade level

**6970 (d) granules**

granules to soil surface, mulch, gravel, lawn, turf, or groundcover, the applicator shall sweep any granules that land on horizontal impervious surfaces onto the treatment site

**6970 (e) prohibited applications**

- (1) to any site during precipitation, except applications to underside of eaves
- (2) to the soil surface, mulch, gravel, lawn turf, groundcover, or horizontal impervious surfaces with standing water, including puddles
- (3) to a sewer or storm drain, or curbside gutter
- (4) to the following components of a constructed drainage system that drains to a sewer or storm drain, curbside gutter, or aquatic habitat:
  - (A) Visible drainage grate connected to a drain pipe or
  - (B) Visible french drain, or a landscaped dry river bed, swale or trench filled with gravel or rock
- (5) to soil surface, including preconstruction termiticide sites, mulch, gravel, lawn turf, groundcover, or horizontal impervious surfaces within 25 feet of aquatic habitat located downgradient from the application. Applicator shall measure from the high water mark or intermittent streams that are dry from the top of the near bank or
- (6) to the preconstruction termiticide site within 10 feet of a storm drain located downgradient from the application

**6970 (f) prohibited application**

applications to plants, shrubs, or trees where there is standing water in the dripline or perimeter of the plants, shrubs, or trees is prohibited
