# California Opioid Overdose Deaths 2015-20

## Opioid Deaths

Those aged 20-34 years old died more from fentanyl overdoses than from other types of drugs. Dr. Aimee Moulin: California Bridge Project, State of Reform Jan. 2021

Sydney Kurler, State of Reform Jan 2021  
Konrad Leo Franco, CHPS

# Fatal Overdose in SLO County

## San Luis Obispo

Source: CDPH Center for Health Statistics and Informatics Vital Statistics - Multiple Cause of Death and California Comprehensive Death Files.  
Note: This indicator includes all overdose deaths, regardless of intent. This indicator does not include: deaths related to chronic use of drugs, deaths due to alcohol and tobacco, or deaths that occur under the influence of drugs, but do not involve acute poisoning. 2019 & 2020 preliminary.  
Creator: Konrad Franco, California Health Policy Strategies (CalHPS)
