plus, \$5.36 per 100 cubic feet of water, or fraction thereof, for the bi-monthly use of water over 1,600 cubic feet.

2 inch meter	50.00 bi-monthly
3 inch meter	110.00 bi-monthly
4 inch meter	210.00 bi-monthly

2. Charges for Establishing a Water Service Connection:

Before any parcel of real property shall receive service from the San Luis Obispo County service Area No. 16 Water System, the County shall be paid both a meter charge and basic charge, computed as follows:

a) Meter Charge Component of Water Service Connection Charge

The meter charge component of the service charge for water service connection shall be based on the size of the meter.

<u>Size of Water Meter</u>	<u>Service Charge</u>
5/8 or 3/4 Inch Meter	\$ 325.00
1 Inch Meter	\$ 350.00
1 1/4 or 1 1/2 Inch Meter	\$ 375.00

The above meter charges are for water service connections where the service lateral connection, appurtenant facilities, curb stop, and meter box have been installed at owner's/developer's expense. Where this is not the case, and for meters larger than 1 1/2 inch, the meter charge component of service charge for water service connection will be the actual cost of all labor and materials related to the installation of the service lateral connection, appurtenant facilities, curb stop, and meter box.

b) Basic Charge for Establishing Water Service Connection

As a contribution to the capital cost of County improvements, supplemental water supply, and District reserves, there shall be a minimum basic charge for establishing a water service connection of \$2,800 per service connection. For any service connection with a dwelling unit equivalent (DUE) greater than one (1), as determined by the County Director of Public Works, the basic service charge for establishing a water service connection shall be \$2,800 per DUE. (For example, if a service connection has 1.5 DUE's, the basic service charge shall be \$4,200.)

The County Director of Public Works shall use the following criteria in determining the number of DUE's per service connection:

- i. In residential areas, each single family home or lot will be counted as one (1) DUE. Each unit of a multi-family dwelling will be counted as one-half (1/2) of a DUE.
- ii. In commercial and industrial areas, each acre (including storage and parking area) will be counted as a minimum of five (5) DUEs.
- iii. In parks and landscaped areas, each acre of land will be counted as two (2) DUE's.
- iv. In a mobile home subdivision, each unit or space will be counted as three-quarters (3/4) of a DUE.

3. Basic Charge for Modifying Water Service Connection or Meter Size

If, at any time after a water service connection is established, there is an increase in the number of DUE (as determined by the County Director of Public Works consistent with section 2.b) being served on the property due to a change in land use or other development of the property, then an additional charge of \$2,800 per each additional DUE on the property shall be applied as a contribution to the capital cost of County improvements, supplemental water supply, and County reserves.

If, at any time when a water service connection is established, a property desires to change its meter size, there will be a charge equal to all labor and material costs of the County related to changing the meter size.
