Subject: [EXT]Map that shows my "Community of Interest"

ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

Board of Supervisors,
Regarding redistricting, please accept this map as a supplement to the public comment I submitted November 21st and the Community of Interest tool I submitted November 21st online through the county's portal. Since I was limited to 500 characters through the online portal, I was unable to describe the outer boundaries of our HOA.

This map shows the boundaries for Santa Lucia Hills Master Homeowners Association located in the City of San Luis Obispo.

As currently shown on the the Patten map, our HOA splits at Tank Farm Road and splits the homes between 2 supervisory districts. I request all 560 homes and condos of our HOA be included in the same supervisory district. Please make adjustment to the Patten map.

Thank you,

Nancy Welts

Message: Please vote for the redistricting plan recommended by the San Luis Obispo Chamber of Commerce. It's time we all put partisan politics aside and allow democracy to determine our outcomes. Manipulating our district lines, in a way that favors one party over another, does not fit with that way of thinking. I am a 60 year resident of San Luis Obispo County and a registered voter. I am sickened by what I see happening in politics and with our politicians throughout our nation!! Do the right thing!!

Subject: [EXT]SLO County Redistricting Proposed Two Maps

ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

Good evening Supervisor Peschong,

Thank you for voting to support two redistricting maps for consideration by the SLO County Board of Supervisors at the recent November 19th meeting. Of the two maps, I respectfully request your support for the adoption of Richard Patten's Rev. 1 Citizens' Map.

https://www.slocounty.ca.gov/Departments/Administrative-Office/Forms-Documents/Redistricting/Richard-Patten-Rev_1_ID-74786_Detail.pdf

After reviewing the two maps, the only one that fully conforms to rules set by the 2020 California Citizens Redistricting Commission, is the Patten map. It recognizes communities of interest that are geographically compact, undivided and populations evenly distributed throughout the County

The City of San Luis Obispo is a single "community of interest," as well as Cal Poly which should logically be included within the City of San Luis Obispo. These two communities should not be divided, and should both remain within one supervisorial district. Might add, Cal Poly's socio-economic interests are tied strongly to the City of San Luis Obispo.

Again, I whole-heartedly support Richard Patten's Rev. 1 Citizens' Map. It adheres to the criteria set forth for redistricting and is fair and non-political.

Please vote to adopt Richard Patten's Rev. 1 Citizens' Map!

Thank you.

Respectfully,

Andrea Seastrand

Dear Supervisors,

I strongly support the Chamber of Commerce map! The other one is full of inconsistencies as noted in the Tribune editorial (see link below).

Please avoid the gerrymandering that the Patton map forces on the County. Stand up for what truly represents the nature of our county and vote for the SLO Chamber map.

Thank you,
Bert Forbes

Dear Supervisors,

Thank you for bringing back for review and final vote only these two maps.

My choice is the Richard Patten Map Rev_1 ID 74786. This map keeps Templeton and Atascadero whole and keeps Cal Poly out of the north. The City of SLO and Cal Poly are joined at the hip, both geographically and socially. Please keep them intact.

Thank you,

Travis Semmes

Dear Members of the Board of Supervisors,
As a 30-year resident of Morro Bay I am very upset that the Board has narrowed down choices for redistricting to only two options--the so-called Patten map and one supported by the Chamber of Commerce.

It is vitally important that Morro Bay remain in a District 2 configuration that includes all the northern coastal cities. We are on the cusp of making vital decisions about the future of offshore wind farms, a large battery installation at the power plant property and consideration of an extensive offshore conservation area. Morro Bay should be included with the rest of the north coast in being represented on the board. Please follow the criteria set up for redistricting, especially:

Respect the communities of interest as voiced by those who share common social and economic interests.

I supported Plan B, but the Chamber of Commerce map is far superior compared to the Patten Map.

Sincerely,
Norma Wightman

To: Vicki Janssen <vjanssen@co.slo.ca.us>
Cc: Raynette Gregory [REDACTED]
Subject: [EXT]San Luis Obispo County Supervisor District Boundaries

ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

Hi Vicki,

After looking at the proposed Supervisor District Boundary Map that was designed by Richard Patten, I discovered that the community of San Miguel will be bisected by this change. I worked with Board President Raynette Gregory on this issue, and we have a letter that we would like to humbly submit for the board's consideration.

If you or Supervisor Peschong have any other thoughts on it, or a better minor modification, we would be open to hearing about it.

Sincerely,

Anthony Kalvans

Dear San Luis Obispo County Board of Supervisors,

We are writing to you to humbly request that a minor modification be made to the Richard Patten map, if it is chosen by your Board.

In its current form, the Patten Map cuts through the community of San Miguel, cutting off parts of our San Lawrence Terrace from the rest of the community. Because of this, we are requesting that all of the San Miguel CSD Boundaries are kept together in District 2. According to your modeling, this would represent a shift of exactly 100 residents from District 1 into District 2.

The existing CSD boundaries are the long-accepted boundaries of our community. By making this change it would keep our small community intact, respect our Latino community, and improve the max deviation from 4.85% to 4.67%.

If Census Blocks must be used, we have attached a map of the area showing our proposed changes, versus the Patten Map, and a map of the San Miguel CSD Boundaries.

Sincerely,

Raynette Gregory

President, San Miguel Community Services District

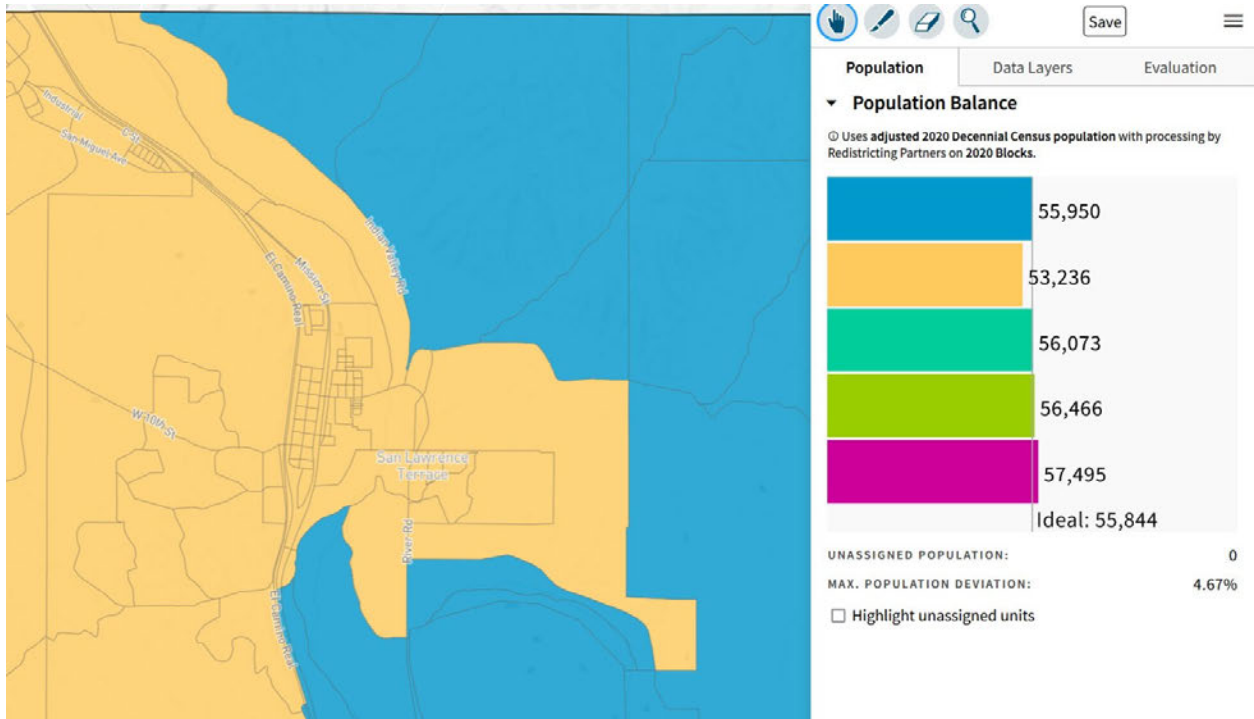

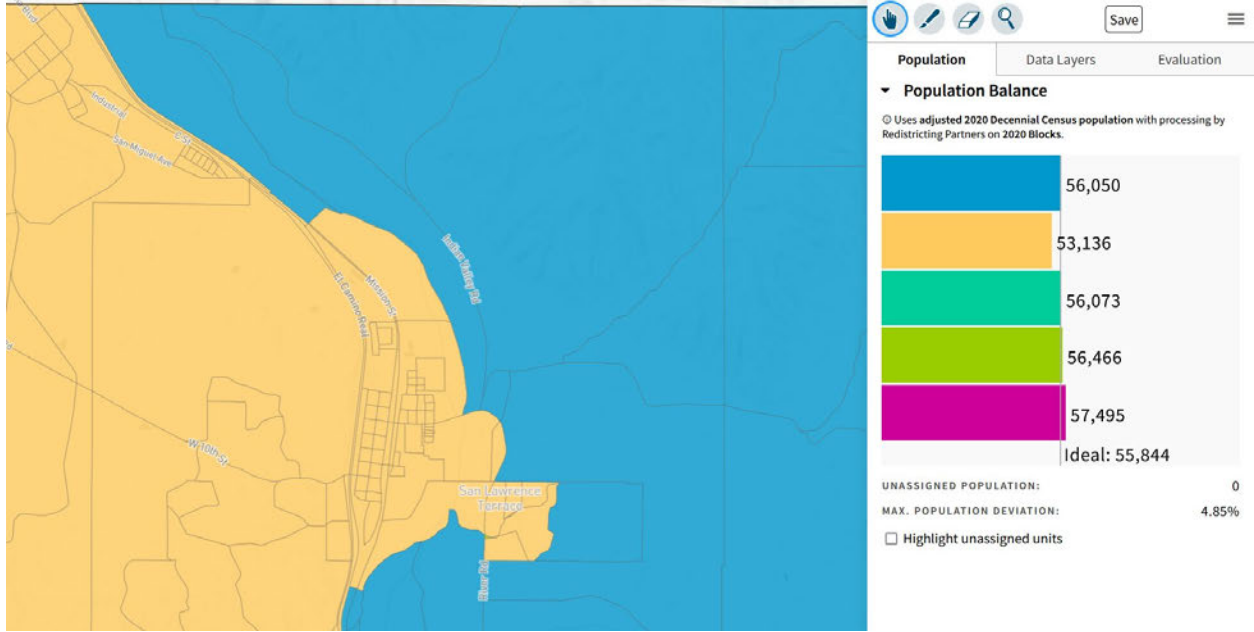

Resident of Proposed District 1

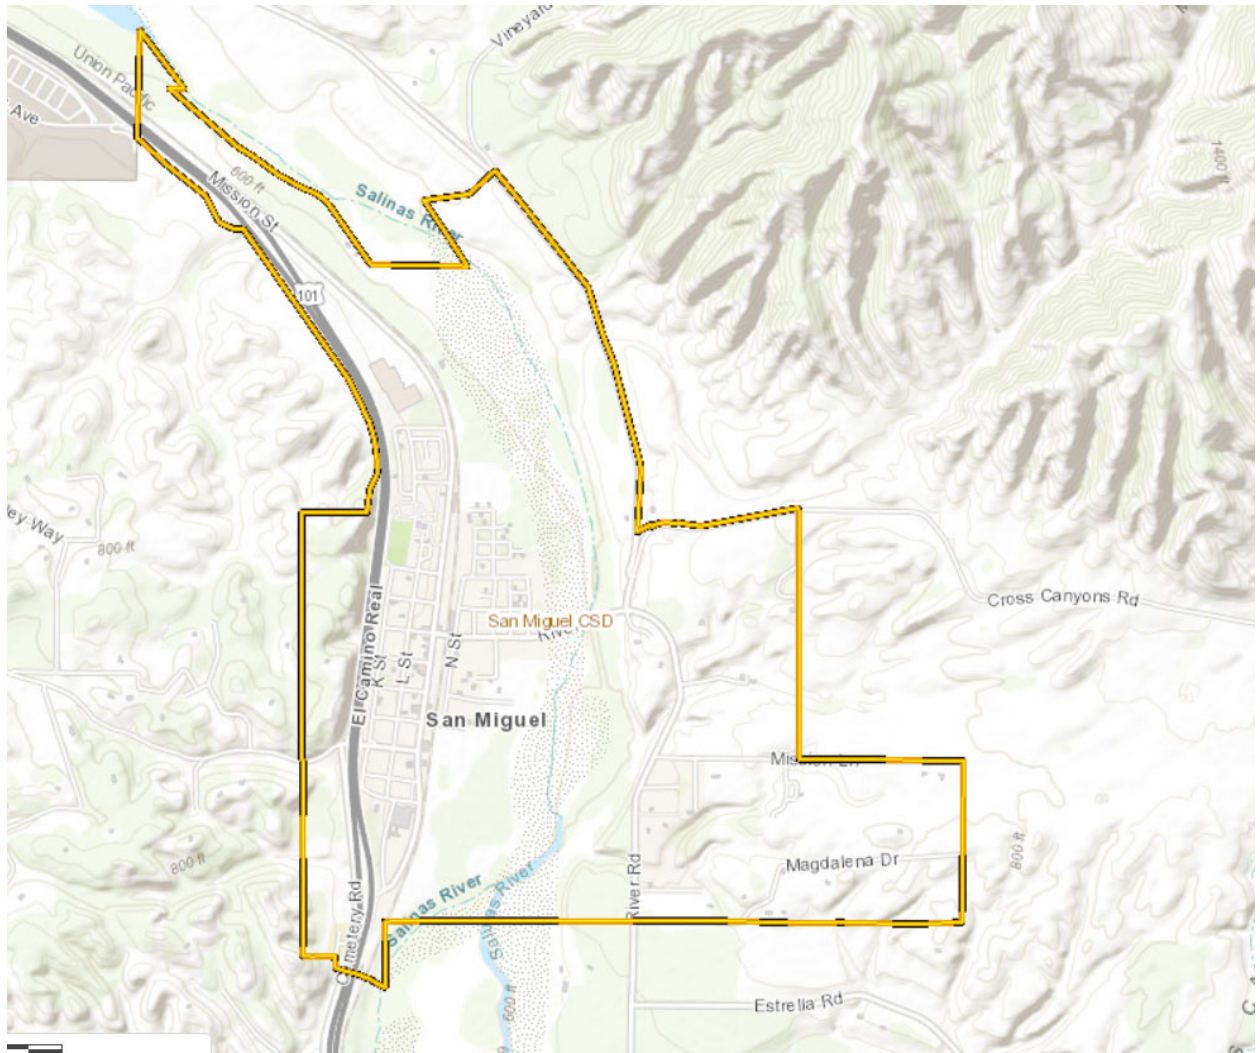

Anthony Kalvans

Vice President, San Miguel Community Services District

Resident of Proposed District 2

Submitted on our own time and not at the direction of the CSD.

ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

Richard Patten's Map Rev_1 ID 74786 would be my choice as it keeps San Luis Obispo with Cal Poly, and it keeps Templeton and Atascadero whole. I have lived in Atascadero for over 10 yrs., following having lived in SLO for more than 50 yrs. I am also a Cal Poly graduate. My belief is that SLO should be kept whole, with all of Cal Poly. I know that both CP and SLO are a single community of interest, and neither fits in with Atascadero. I know this because I have been a part of all three and the needs and wants of Atascadero do not mesh with SLO or CP. Thanks for listening and I hope you do the right thing.

Dan Hathaway

Dear County Board of Supervisors,

I have reviewed the two district maps moving forward for your consideration. I strongly urge you to keeping the North Coast Area of SLO County together in one supervisorial district and reject the Patten plan, which significantly disassociates communities of interest. The SLO County 2030 map - as proposed by the SLO Chamber - makes sense to me and my family. We know the regional issues facing SLO County, and the Chamber's map honors effective governance and representation on those regional issues. The Patten map is nonsensical to me for any issues related to regional representation and advocacy.

Thank you for your thoughtful consideration and for the message you are sending about the ability of local government to rise above the unfortunate divisiveness that stains much of our national politics.

Respectfully yours,

Garret Olson, San Luis Obispo

Thank you for all of your efforts in considering the choice of these two maps.

My choice is the Richard Patten Map Rev_1 ID 74786.

This map complies with state guidelines and keeps San Luis Obispo with Cal Poly, keeps Templeton and Atascadero whole.

The other map retains the gerrymandering of the existing map and does not comply with state guidelines.

Thank you for your time.

Hi Supervisor Arnold,

Thank you for bringing back for review and final vote only these two maps.

My choice is the Richard Patten Map Rev_1 ID 74786.

This map keeps San Luis Obispo with Cal Poly and keeps Templeton and Atascadero whole.

The other map is similar to Map A that was already rejected by the November 19 vote.

Thanks,

David Gray

Thank you for bringing back for review and final vote only these two maps.

As I said on Friday's meeting, as a citizen of San Luis Obispo county, it is important that our county District Supervisors set the district lines according to the requirements of the Fair Maps Act and our State Constitution. I am sincerely sick of seeing elected and unelected people in positions of authority absolutely ignore both the letter and spirit of the rules that, in this case, guide the drawing of the district's lines.

My choice is the Richard Patten Map Rev_1 ID 74786. This map keeps Templeton and Atascadero whole and keeps Cal Poly out of the north.

I am proud of the stand you three took to stand for the guidelines. You have my support for voting for this map which is best and standing firmly against giving progressives illegal advantage. Stand strong.

Comment My understanding is that population changes do not warrant dramatic changes, as are proposed in the Richard Patten map. I urge you to support the map proposed by the San Luis Obispo Chamber of Commerce, which represents the most politically neutral option.

Dear Board of Supervisors,

Of the two district maps under consideration, Richard Patten's map is a radical departure that dramatically and negatively affects the representation Avila Valley would receive. It also cuts apart communities with shared interests.

For the Avila Valley, it significantly reduces access to and direct involvement and oversight by the supervisor responsible for our area. For our district it could result in having 20% less of our supervisor's time due to the number of councils included in the new district.

Our community is unique. Not because we are unincorporated but because of the composition, (e.g. numerous HOAs, large recreational areas and rural communities, commercial areas catering as much if not more to non-residents than locals, closest community to nuclear power plant (underway to be decommissioned), non-city water and sewer services, vast number of acres of oak woodlands and open space, an older population, large number of second homes, vacation rentals) and special conditions (e.g. high fire risk area, one-way in/out, limited parking, high seasonal and event traffic). Our area needs a model that allows the supervisor to devote the necessary time to address the constituents' concerns and needs and to understand the long, complex history of how we got to where we are.

For SLBE, Patten's redistricting has the potential of undoing much of the progress that has occurred.

I ask you to keep the map that exists today or adopt the map generated by the Chamber of Commerce.

Carol Hayden

Resident in San Luis Bay Estates
President of San Luis Bay Estates HOA Board of Directors

Subject: Redistricting Impact on Avila Beach

We have learned that the redistricting map propounded by Richard Patton is the probable final choice for SLO county. See below and at https://districtr.org/edit/74786?event=slo_county

<image.png>

This would expand our district including Avila Beach to additionally include Los Osos and Oceano, running from the southern end of Pismo Beach to the edge of Morro Bay State Park (including Diablo Canyon). It also includes the Laguna Lake and airport areas of south SLO making it the largest district with 57.5K people. SLO City would be reduced from three supervisors to two.

The result would be county district services spread out over a much wider area, meaning our supervisor would be responsible for a larger area of SLO City, plus two county airports, plus Oceano & Los Osos. County services and district supervisor attention to Avila Beach will be substantially diminished within this new district.

Our last chance to publicly voice our concerns on the record regarding these changes will be at the November 30th BOS meeting (starting at 9:00 AM).

AVAC members and others who are concerned about diminished attention to our Avila Beach needs are encouraged to show up and speak on November 30th at the BOS meeting.

Regards,
Steve Benedict
AVAC Chair
