### Check list for items to be completed at time of assessment:

CA ASAM
Review Health Questionnaire- If not reviewed at time of screening
Complete Diagnosis Document for each program enrollment & update
as needed
Update Client Clinical Problem Details as needed
Assessment Service Note- Select Procedure, "ASAM Assessment"
Complete NOABD if needed- NOABD Denial

#### **CA ASAM Service Note**

#### **INTERVENTIONS:**

Clinician completed assessment using CA ASAM assessment, including assessing for risk factors (SI/HI, withdrawal symptoms, medical issues), for access criteria for SUD Treatment Services based on substance use in the last 12 months.

Clinician reviewed limits of confidentiality including mandated reporting requirements for child abuse and elder abuse and danger to self or danger to others (Tarasoff).

Clinician reviewed/updated Diagnosis Document & Client Clinical Problem Details to establish access criteria.

Clinician reviewed the client's Health Questionnaire

Clinician completed program orientation by reviewing functions and requirements of the program.

Clinician informed client about drug testing program.

Clinician used motivational interviewing, strength based/solution focused techniques, and empathy to build the therapeutic alliance and complete CA ASAM assessment with **[CLIENT'S NAME]**.

#### PLAN:

Based on this clinician's clinical impression and client's report of symptoms and
impairments related to their ongoing substance use within a 12-month period,
client meets criteria for Client endorses the following criteria:
(Enter list of numbers associated with substance use criteria).
Client was recommended the following LOC (level of care) placement:
Client accepted the following LOC placement:
Drug Testing Group:
Urgency Level: Crisis-Emergency/ Routine/ Urgent
Meet & Greet:
Other Appointments (ex. MAT):
Other Referrals:
Client Physical Exam:

#### **Next Scheduled Appointment:**

Did the client accept the first offered appointment? YES/NO

### \*\*If applicable\*\*

If client did NOT accept first offered appointment, enter first follow-up appointment offered date:

\*\*If more than 3 days are needed to write the Progress Note, it's okay to submit the note late and enter the following narrative:

Progress Note entered X-days after the assessment service because Clinician needed additional time to complete the write-up of the CA ASAM Assessment document.

#### \*\*If client does NOT meet criteria: \*\*

Based on the information provided by client, **[CLIENT'S NAME]** does not meet access criteria for substance use services at this time. Client denied diagnostic criteria related to their substance use in the last 12 months.

DAS staff to contact the referring party to inquire about any conflicting information regarding client's use in the last 12 months. If no conflicting information is provided, the client's case will be closed. Client may return to DAS if services in the future are needed. Client provided with a list of SUD Treatment referrals in the community.

Close Reason: Client did not meet medical necessity criteria.

\*\*If client meets criteria and declines services\*\*

#### PLAN:

Based on the information provided by client and clinical judgment, client appears to meet access criteria, however, at this time client is declining Drug & Alcohol Services. Client may return to DAS in the future as needed.

Client Referred to:

Close Reason: Client completed assessment process but declined offered treatment dates

## **Final Placement Determination (Comment Box)**

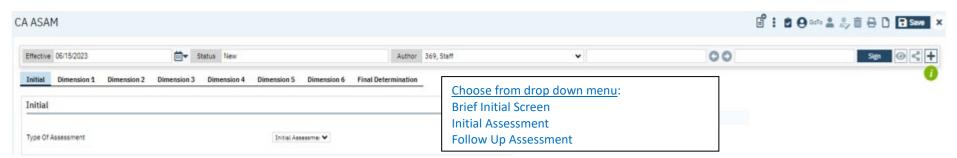

Enter description of recommendations (justification for LOC placement decision(s), description of discrepancy between levels of care and/or delayed admission, further information such as behavioral intervention, drug information, etc.):

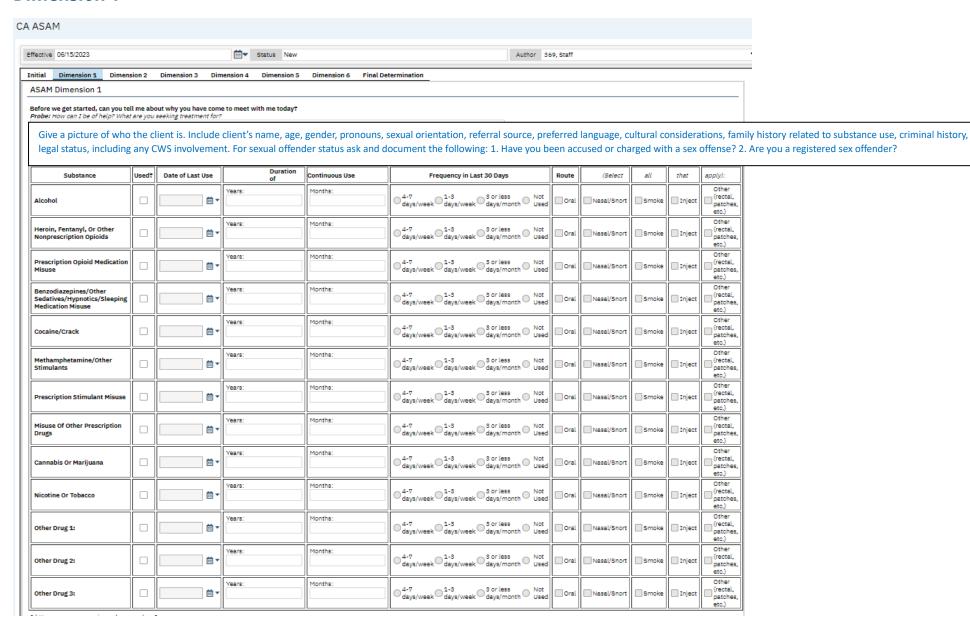

Based on this clinician's clinical impression and client's report of symptoms and impairments related to their ongoing substance use within a 12-month period, client meets criteria for Client endorses the following criteria: (enter list of numbers associated with substance use criteria).
Client was recommended the following LOC (level of care) placement:
Client accepted the following LOC placement:
Drug Testing Group:
Urgency Level: Crisis-Emergency/ Routine/ Urgent
Meet & Greet:
Other Appointments (ex. MAT):
Other Referrals:
Client Physical Exam:
Sex Offender Questions:
Have you been accused or charged with a sex crime? YES / NO
Are you a registered sex offender? YES / NO

If Screening/Assessment was completed by a Registered or Certified Counselor, an LPHA has been consulted and access criteria (DSM 5 and ASAM) for SUD services were verified by the LPHA. LPHA has also co-signed this document. YES / NO/ NA

Please enter the name(s) for up to three substances of highest clinical concern for this client. After, please check the checkbox if the statement is accurate for the client's use of each substance.

Item #	Substance Use Disorder Criteria (DSM-5)	Name of Substance #1:	Name of Substance #2:	Name of Substance #3:
1	Substance often taken in larger amounts or over a longer period than was intended.			
2	There is a persistent desire or unsuccessful efforts to cut down or control substance use.			
3	A great deal of time is spent in activities necessary to obtain the substance, use the substance, or recover from its effects.			
4	Craving, or a strong desire or urge to use the substance.			
5	Recurrent substance use resulting in a failure to fulfill major role obligations at work, school, or home.			
6	Continued substance use despite having persistent or recurrent social or interpersonal problems caused or exacerbated by the effects of the substance.			
7	Important social, occupational, or recreational activities are given up or reduced because of substance use.			
8	Recurrent substance use in situations in which it is physically hazardous.			
9	Continued substance use despite knowledge of having a persistent or recurrent physical or psychological problem that is likely to have been caused or exacerbated by the substance.			
10	Tolerance, as defined by either of the following:  -A need for markedly increased amounts of the substance to achieve intoxication or desired effect.  -A markedly diminished effect with continued use of the same amount of the substance.			
11	Withdrawal, as manifested by either of the following: -The characteristic withdrawal syndrome for the substanceSubstance (or a closely related substance) is taken to relieve or avoid withdrawal symptoms.			
	Total Number of Criteria	0	0	0

Ising the questions above, does the client meet criteria for Tobacco Use Disorder?  Yes No
List Substance Use Disorder(s) that meet DSM-5 Criteria and Date of DSM-5 Diagnosis
"Based on the client's report on the substance use tab and this clinician's diagnostic impression, (client's name) meets criteria for (list substance) use disorder (specify Mild, Moderate, or Severe) based on criteria: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 (list all that apply)."
