- NEW: 3 CCR § 6742(a)** The employer must train an employee handling pesticides on the safe operation of any equipment used for mixing, loading, transferring, or applying pesticides. This must be done prior to the initial use of the equipment and **at least annually thereafter**.
- California Code of Regulations § 6738. Personal Protective Equipment (PPE)**
In addition to all pesticide labeling PPE, the employer is required to **provide** employees who handle pesticides with PPE required by regulation, **ensure that employees are using all required PPE, and using it properly**.
Common PPE violations for employees applying pesticides include:
 - Wearing protective eyewear on top of their head or hat
 - Using cloth or rubber dipped fabric gloves when chemical resistant gloves are required
 - Having access to PPE but choosing not to wear it
- 3 CCR § 6726. Emergency Medical Care.**
 - The employer shall locate a facility in advance, where emergency medical care is available for employees who handle pesticides.
 - Employees must be informed of the name and location of a facility where emergency medical care is available, and if the facility is not reasonably accessible from their work location, procedures to be followed to obtain emergency medical care.
 - The name, address, and phone number of the medical facility must be posted in a prominent place at the work site **or work vehicle**.
 - When there are reasonable grounds to suspect that an employee has a pesticide illness or when an exposure to a pesticide has occurred that might reasonably be expected to lead to an employee's illness, the employer shall ensure that the employee is taken to a physician immediately.
- 3 CCR § 6602, Labeling Available at Use Site:** A copy of the registered labeling that allows the manner in which the pesticide is being used shall be available at each use site. Digital or physical formats are acceptable, however if an electronic device fails and the digital format cannot be viewed, the user would be in violation of CCR §6602.
