

## ARGUMENT AGAINST MEASURE G-18

Measure G is a costly ballot initiative that would result in another major employer shutting down in our County—hurting local workers and their families and resulting in new economic problems for our County.

### **Measure G would shut down existing oil and gas production.**

- Practices that have been safely used for over a century and are needed for existing production to continue would be banned by Measure G.
- As a result, Measure G would shut down existing oil and gas production in San Luis Obispo County.

### **Measure G would result in more economic uncertainty.**

- Already, the closure of Diablo Canyon is going to put a heavy economic strain on our county budget.
- If oil and gas production is shut down, the county would lose even more tax revenue, which could result in deep budget cuts to public safety and schools.

**FILED**

### **Measure G would harm our families and our community.**

- Hundreds of workers would be at risk of losing their jobs.
- Millions in annual state and local tax revenues would be lost.

### **Measure G would expose the County and its taxpayers to massive financial liability.**

- The County would be required to defend itself against lawsuits over Measure G, which could cost the County millions of dollars in legal fees alone.

### **Measure G would increase dependence on foreign oil.**

- California produces less than 35% of what is needed to meet the demand of gasoline for our drivers.
- Oil that we do not produce locally would have to be imported from somewhere else, including countries that have poor environmental regulations and terrible human rights standards like Saudi Arabia, Iraq and Russia.
- We should allow local producers to help meet our energy needs in the responsible way, under the strictest environmental regulations in the world.

### **Vote NO on G.**
