35th Assembly District Candidate
Bill Ostrander

**STATEMENT OF CANDIDATE FOR
U.S. REPRESENTATIVE, 24TH CONGRESSIONAL DISTRICT**

SALUD CARBAJAL

Occupation: Member of Congress

Education and Qualifications: I'm Salud Carbajal. I'm a proud husband, father, and Marine Corps veteran. I was the first in my family to graduate from a University, working two jobs to pay for my education at UCSB. I know what it's like to struggle and work hard to provide for my family, and I'm committed to making sure other families on the Central Coast have the same opportunities I did to get ahead.

I've strived to represent our Central Coast values in my service. I'm proud to have earned endorsements from the Sierra Club and Planned Parenthood for standing up for women's reproductive rights, preserving our environment, and protecting the integrity of our elections.

As a Member of Congress, I've worked with my Democratic and Republican colleagues to find common ground on issues that unite us. I've reached across the aisle to move forward bipartisan legislation that helps create new jobs, addresses the disastrous impacts of climate change, supports our nation's veterans and gold star families, fixes our broken immigration system, and invests in sustainable water infrastructure as our state faces an extended drought.

However, there is more work to be done. I'm willing to tackle the big issues to bring down the cost of health care, not repeal it. I'm fighting to make college more affordable and relieve students of crushing loan debt.

For more information about my campaign, please visit SaludCarbajal.com. I hope to earn your support on November 6th. Thank you.

**DECLARACIÓN DEL CANDIDATO PARA
REPRESENTANTE DE EE. UU., DISTRITO 24 DEL CONGRESO**

SALUD CARBAJAL

Ocupación: Miembro del Congreso

Educación y Competencia: Yo soy Salud Carbajal. Soy un orgulloso esposo, padre y veterano del Cuerpo de Marines de Estados Unidos. Fui el primero de mi familia en graduarse de una Universidad, con dos trabajos para pagar mis estudios en UCSB. Sé lo que es esforzarse y trabajar duro para mantener a mi familia, y me comprometo a asegurarme de que otras familias de la Costa Central tengan las mismas oportunidades que yo tuve para salir adelante.

He luchado para representar los valores de la Costa Central durante mi mandato. Me enorgullece haber obtenido el apoyo de Sierra Club y Planned Parenthood para defender los derechos reproductivos de la mujer, preservar el medioambiente y proteger la integridad de las elecciones.

Como Miembro del Congreso, he colaborado con mis colegas Demócratas y Republicanos para ponernos de acuerdo en problemas que nos unen. Me he unido a mis colegas para proceder con una legislación bipartita para crear nuevos trabajos, abordar el grave impacto del cambio climático, apoyar a los veteranos y a las familias de la "estrella de oro" de nuestro país, arreglar el sistema migratorio arruinado, e invertir en infraestructura sostenible de agua debido a la gran sequía que enfrenta nuestro estado.

Sin embargo, hay mucho trabajo por hacer. Estoy dispuesto a resolver los problemas grandes para reducir el costo de la atención médica, no para revocarlo. Estoy luchando para hacer que la universidad sea más asequible y para liberar a los estudiantes de las devastadoras deudas de préstamos.

Para obtener más información sobre mi campaña, visite SaludCarbajal.com. Espero tener su apoyo el 6 de noviembre. Gracias.

**STATEMENT OF CANDIDATE FOR
MEMBER OF THE STATE ASSEMBLY, 35th DISTRICT**

BILL OSTRANDER

Occupation: Farmer/Nonprofit Advocate

Education and Qualifications: Health care is our right, not a privilege. Taking care of one another is right ethically, and using the bargaining power of California's 40 million people to negotiate medical costs is the smart thing to do fiscally. Unless you are an insurance company benefiting from a profit-driven healthcare system, this is a win/win.

A fair election process is our right, not something to be bought. We must remove the corruptive influence of using private funds to elect public officials. The insatiable need for campaign funding ruins conversations about governance, focuses politicians on just the wealthiest among us, and prevents us from achieving the legislative outcomes we need.

Access to higher education is our right, and not the privilege of the wealthy. In fact, we declared this in California's Master Plan for Education and we need to return to that commitment. It is not only right ethically: spending money on universal pre-school, more vocational and art programs for high school and college, internship programs, and affordable education are proven smart investments in our economy.

Access to clean air, water, and food is our right, not the privilege of previous generations. We must use our farming practices to combat global warming by drawing down atmospheric carbon and placing it back in our soil where it can improve fertility and water absorption, reducing our dependence on synthetic fertilizers and chemicals. That makes us all healthier.

This is about all of us. Let's put our best selves forward.

**DECLARACIÓN DEL CANDIDATO PARA
MIEMBRO DE LA ASAMBLEA ESTATAL, DISTRITO 35**

BILL OSTRANDER

Ocupación: Granjero/Defensor sin Fines de Lucro

Educación y Competencia: La atención médica es un derecho, no un privilegio. Cuidarnos los unos a los otros es éticamente correcto, y utilizar el poder de negociación de los 40 millones de habitantes de California para negociar los costos médicos es astuto a nivel fiscal. Todos ganan a menos que usted sea una empresa aseguradora que se beneficia del sistema de salud con fines de lucro.

Un proceso electoral justo es nuestro derecho, no algo que se compra. Tenemos que eliminar la costumbre corrupta de utilizar fondos privados para elegir a los funcionarios públicos. La necesidad insaciable de fondos para las campañas arruina las conversaciones sobre la gobernación, hace que los políticos se enfoquen en los más ricos, y evita que obtengamos los logros legislativos que necesitamos.

El acceso a la educación superior es un derecho y no un privilegio de los ricos. De hecho, establecimos esto en el Plan Maestro de Educación de California, y necesitamos recuperar ese compromiso. No es solo éticamente correcto: el gasto de dinero en educación preescolar universal, más programas vocacionales y artísticos para la escuela secundaria y la universidad, los programas de pasantías, y la educación asequible han demostrado ser inversiones inteligentes en nuestra economía.

El acceso al aire, el agua y la comida limpios es un derecho, no un privilegio de las generaciones anteriores. Debemos utilizar nuestras prácticas agrícolas para combatir el calentamiento global al reducir el carbono en la atmósfera y volver a colocarlo en nuestra tierra, donde puede mejorar la fertilidad y la absorción del agua, reduciendo así la dependencia de fertilizantes sintéticos y químicos. Esto nos hace más sanos a todos.

Esto es para todos. Demos lo mejor de nosotros mismos.

**STATEMENT OF CANDIDATE FOR
GOVERNING BOARD MEMBER
Cayucos Elementary School District**

CHRIS CASTILLO

Age: 53

Occupation: Businessman

Education and Qualifications: Cayucos Elementary holds significant importance to me. I attended school in Cayucos from Kindergarten to 8th grade, then went on to Coast Union High School in Cambria. My father taught at Cayucos for 24 years while my mother taught in Cambria. I went on to attend Cal Poly where I received a B.S. in Biochemistry and an MBA. I had a great public-school education which opened a world of opportunities and made me who I am today.

My career has been a path of increasing responsibilities culminating in the management of several large companies with responsibility for profitability, budgeting, and management of hundreds of employees. I am known as a fair and open-minded individual who is open to opposing opinions and debate to reach the best solution.

I look forward to bringing my experience to provide oversight of the school's management, be accountable to the community, and continue the excellence of Cayucos Elementary for the benefit of the students.

**STATEMENT OF CANDIDATE FOR

Cayucos Elementary School District**

PETER J. SCHULER

Age: 47

Occupation: College Instructor / Coach / Sports Information Director

Education and Qualifications: Cayucos School holds a special place in our community and is charged with educating our next generation. I want to help Cayucos School students to cultivate a search for knowledge and intellectual curiosity, while fostering a passion for lifelong learning. As a Board Member I shall support and work with school administrators, faculty and parents, while promoting a complete educational experience for our students. I look forward to joining Cayucos School to help build on its already excellent reputation in achieving student success.

**STATEMENT OF CANDIDATE FOR

Education and Qualifications: I am committed to assuring a quality education for Cayucos students that prepares them for a successful transition to high school, and ultimately, helps them achieve their dreams from the opportunities presented to them in life. In order to achieve this goal, we need the best teachers, administration, and staff who understand that their role is to serve, and be an example to, our students. I ask for your vote.

Community Service Involvement

Cayucos Elementary School District Board of Trustees from February 2014 to December 2016. Currently an Appointed Trustee; Rotary Club of Cayucos from 2013 to present, Past President; State of California Private Security Advisory Board; California State University – Fresno, Criminology Board of Advisors; Board of Advisors for the Institute for Family Business at CSU – Fresno.

**STATEMENT OF CANDIDATE FOR
GOVERNING BOARD MEMBER
Cayucos Elementary School District**

FREDERICK MICHAEL BEYERLEIN
Occupation: Chief Operating Officer

Education and Qualifications: Do you know how your tax dollars, earmarked for education, are spent? I don't know either. Are your dollars being wasted or carefully invested in the children of Cayucos? I don't know either, but if you elect me, I will instill a sense of taxpayer responsibility especially for those taxpayers that don't have children or don't live full-time in Cayucos. Every taxpayer benefits from a well-operated school district. Our Superintendent needs and relies on a unified and competent board in order to act confidently in the best interest of our children. I'm an experienced executive that has turned around bankrupt hospitals. As the Chief Operating Officer for Hall Management Corp, the largest farm labor contracting company in the state of California, I effectively deal with complex issues involving all regulatory agencies. I'm no stranger to education either, as an adjunct faculty member at Fresno City College, American River College, Sierra College, National University and several vocational schools. I know the gridlock that strangles a good idea before it can ever help the student body. Let my graduate degrees (MBA, MS) and experience bring accountability to you, the taxpayer, stuck with the tab whether you like it or not.

**COUNTY OF SAN LUIS OBISPO
IMPARTIAL ANALYSIS OF MEASURE G-18**

This measure proposes the adoption of an ordinance through the initiative process. If 51% of qualified voters vote to approve the measure, an ordinance will be adopted amending the San Luis Obispo County General Plan, including the Local Coastal Program, and Title 22 and Title 23 of the San Luis Obispo County Code, to prohibit well stimulation treatments and any new petroleum extraction on all land within the unincorporated area of the county. The intended purpose of the measure is to protect county land, water, and quality of life.

Some impacts of the measure are uncertain because it is not known to what extent the banned or limited well stimulation activities are either utilized or necessary to the recovery of oil or gas in the county. The measure bans any new petroleum extraction but permits as a "nonconforming use" any petroleum extraction existing on the effective date of the measure (10 days after the vote approving the measure is declared by the board of supervisors [Elec. Code, § 9122]; hereafter "the effective date"). Such extraction may not be enlarged, increased, or otherwise expanded or intensified after the effective date. The measure prohibits all well stimulation treatments, even those currently existing on the measure's effective date. Well stimulation treatments include fracking and acidizing (acid well stimulation), which can be used, where effective, to enhance recovery of petroleum.

The legality of the measure is uncertain. To the extent the measure regulates drilling operations underground, it may be preempted by state or federal law. San Luis Obispo County retains land use regulation on the surface, but the validity of local land use regulations that impact how wells are operated below ground is not clear. In addition, the measure's regulatory restrictions on certain oil extraction without compensation may result in claims of an unconstitutional "taking" of mineral rights. In order to avoid an unconstitutional taking and county liability, the measure provides authority for the county to grant a limited exemption to the regulations imposed by the measure based on substantial evidence of facts constituting a taking. The procedures for evaluating evidence of a taking and determining the extent of any exemption are not prescribed by the measure. The necessity of utilizing such procedures prior to bringing suit against the county is unknown. Any exemption determination would be subject to judicial review.

The measure requires the county to defend the measure. If the measure is approved, litigation is anticipated. Litigation would likely include claims of preemption and an unlawful taking of private property rights. County resources would be necessary to defend against such claims, and to process taking exemption claims and vested rights claims made by holders of mineral rights.

The measure has been placed on the ballot by the requisite number of voters who signed the initiative petition for the measure. A "yes" vote on the measure is a vote in favor of the measure. A "no" vote is a vote against its adoption.

FISCAL IMPACT STATEMENT FOR MEASURE G-18

The fiscal impact of Measure G-18 to County revenue and expenditures is inherently difficult to predict due to its intersection with the variable oil market, changing technologies, and potential secondary effects of restricting oil production.

If approved, Measure G-18 prohibits new petroleum extraction and “well stimulation treatment;” existing operations would be allowed to continue as long as they are not expanded or intensified. As stated in Measure G-18, the impacts of petroleum extraction will decrease over time as production from existing wells declines. Additionally, the value of active oil businesses and mineral rights will likely decrease if Measure G is approved, which could impact tax revenue as described below.

Although there may be financial impacts to the County, it is impossible to predict with any certainty what they will be or the net amount. The following fiscal areas would likely be affected if oil extraction decreases:

- **Property Tax:** The assessment of property tax for mineral-producing properties is based on a calculation of oil reserves that the mineral rights holder can access as well as the market price of oil. Restricting the owner’s ability to expand will decrease the value of the mineral rights and thereby decrease taxes.
- **Unitary Tax:** This is similar to property tax except the assessment is calculated by the State rather than the local Assessor. Unitary tax is applied to businesses whose assets cross county boundaries such as transmission lines or pipelines. A decrease in oil production may decrease unitary taxes.
- In Fiscal Year 2017/2018, the oil industry was assessed \$2,304,232 in secured, unsecured and unitary taxes. This represents 0.43% of all assessed taxes for 2017/2018. The taxes were apportioned as follows:

	<u>Amount</u>	<u>Percent of Total Funds</u>
○ Schools -	\$ 1,514,626	(0.283%)
○ County General Fund -	\$ 603,596	(0.113%)
○ Special Districts -	\$ 121,543	(0.023%)
○ Cities -	\$ 20,211	(0.004%)
○ RDA Successor Agencies -	\$ 44,255	(0.008%)

There are other potential financial impacts to the County General Fund which are impossible to estimate, including but not limited to:

- The cost of any environmental damage caused by the oil extraction process. The oil industry is regulated by multiple agencies including the Department of Oil, Gas, and Geothermal Regulation, Environmental Protection Agency, Regional Water Quality Control Board, Air Pollution Control, and the County of San Luis Obispo Planning Department. Although infrequent, even with regulation, oil spills have occurred;
- Any impact to approximately 32 to 76 local oil-industry jobs (source EDD) and the cascading effect to the local economy, including the related consumer spending and associated sales tax;
- County costs for processing applications for exemptions to Measure G-18, including exemptions to avoid unconstitutional takings of property and where there are “vested rights” which may be offset by existing fees;
- Litigation costs defending or opposing exemption approvals or denials;

- Potential litigation costs regarding claims of unconstitutional “takings” of property and/or vested rights. Costs could include monetary awards for damages (the County is not insured against court judgments for “takings” damages).

ARGUMENT IN FAVOR OF MEASURE G-18

Beautiful San Luis Obispo County has a bright and prosperous future if we choose to protect our water, agriculture, and tourism. Fracking, acidizing, and expanded petroleum extraction **put that future at risk.**

Measure G lets the people decide, not the oil companies.

- The oil industry has plans to expand drilling in San Luis Obispo County, if we let them.
- They use risky, energy-intensive oil extraction techniques.
- Oil operations, as well as fracking and acidizing, often require transportation and use of toxic chemicals.
- Fracking and expanded drilling pose risks to San Luis Obispo County's water, agricultural heritage, and rural character, and undermine our clean energy future.

Measure G protects our water quality and quantity.

- It bans fracking, acidizing, and expanded drilling, which endanger our groundwater, creeks and soil.
- Fracking uses large quantities of fresh water. Our limited water supplies should be conserved for local farmers and residents, not sacrificed to the oil industry.

Measure G protects our health and safety.

- Studies reveal toxic chemicals used in fracking and acidizing – and pollution from oil extraction – can cause illnesses such as cancer, birth defects, and asthma.
- Scientists have shown fracking and injection can trigger earthquakes – and we live in an already seismically active area.

Measure G protects our economic future.

- **A safe and reliable water supply is essential for a healthy economy.** Reports show:
- **Agriculture** produced \$732 million in crops, contributed \$1.87 billion to the local economy, and supported over 20,000 local jobs in 2011. 2017 crop values totaled nearly \$925 million.
- **Tourism** generated \$75 million in local tax revenue and provided another 20,000 jobs in 2017 alone.

Measure G is fair and balanced.

- It prohibits expanded drilling but allows existing oil operations to continue.
- It gives the County flexibility to protect property rights.

Vote YES on Measure G: Protect Our Water, Our Health, and Our Future.

REBUTTAL TO ARGUMENT IN FAVOR OF MEASURE G-18

As citizens who proudly live in San Luis Obispo County, we care deeply about our County's future and strongly oppose Measure G.

At this time, when our County faces adverse effects due to the closure of Diablo Canyon, Measure G would create more economic uncertainty, hurt our community, and increase our dependence on foreign oil.

Measure G would shut down EXISTING oil and gas production.

- The promoters of this proposition are using scare tactics about fracking to try to pass Measure G. But, there is no hydraulic fracturing in San Luis Obispo County and no plans to do so.
- Measure G is so broadly written that practices safely used for over a century—and which are needed for existing production to continue—would be banned by Measure G.

Measure G would put the County and its taxpayers at risk for millions of dollars in liability that the County is not insured for.

- San Luis Obispo County would be on the hook to pay millions of dollars to property owners whose mineral rights would be violated by Measure G—thus facing drastic reductions in vital public services.
- A state judge already held that a similar measure in Monterey County was illegal and resulted in Monterey being exposed to massive legal liability.

Even the County's own impartial analysis cited the risk of litigation resulting from the measure (7/20/2018).

We need a balanced approach as we transition to a clean energy economy, not the drastic energy shutdown caused by Measure G.

ARGUMENT AGAINST MEASURE G-18

Measure G is a costly ballot initiative that would result in another major employer shutting down in our County-hurting local workers and their families and resulting in new economic problems for our County.

Measure G would shut down existing oil and gas production.

- Practices that have been safely used for over a century and are needed for existing production to continue would be banned by Measure G.
- As a result, Measure G would shut down existing oil and gas production in San Luis Obispo County.

Measure G would result in more economic uncertainty.

- Already, the closure of Diablo Canyon is going to put a heavy economic strain on our county budget.
- If oil and gas production is shut down, the county would lose even more tax revenue, which could result in deep budget cuts to public safety and schools.

Measure G would harm our families and our community.

- Hundreds of workers would be at risk of losing their jobs.
- Millions in annual state and local tax revenues would be lost.

Measure G would expose the County and its taxpayers to massive financial liability.

- The County would be required to defend itself against lawsuits over Measure G, which could cost the County millions of dollars in legal fees alone.

Measure G would increase dependence on foreign oil.

- California produces less than 35% of what is needed to meet the demand of gasoline for our drivers.
- Oil that we do not produce locally would have to be imported from somewhere else, including countries that have poor environmental regulations and terrible human rights standards like Saudi Arabia, Iraq and Russia.
- We should allow local producers to help meet our energy needs in the responsible way, under the strictest environmental regulations in the world.

REBUTTAL TO ARGUMENT AGAINST MEASURE G-18

Big Oil is spending big money to protect their profits while they threaten our water, economy, and health. Know the facts:

The “Oil and Gas Shut Down” is a Lie

- Measure G allows San Luis Obispo County’s existing oil operations to continue (see Section 2B of the Initiative).

Big Oil is Risking the Heart of San Luis Obispo County’s Economy

- The County Auditor says oil provides fewer than 80 local jobs and only 0.43% of County-assessed taxes.
- Reports show agriculture and tourism together contribute over 40,000 jobs and billions of dollars to the local economy.
- Agriculture and tourism depend on clean and plentiful water. Groundwater contamination could cause significant economic harm.

Big Oil is Bullying Voters with Threats of Lawsuits

- Courts have confirmed local governments have the power to ban new drilling. If we choose to do that, then Big Oil should back off.
- The measure gives the County flexibility to avoid liability for “taking” anyone’s property rights.

Oil Companies Don’t Care About Our Energy Independence

- They convinced Congress to lift the ban on oil exports to maximize their profits. They also consistently lobby against clean energy measures that would reduce our reliance on overseas fossil fuels.
- San Luis Obispo County oil is refined and sold throughout California and internationally, not just for local consumption.

Measure G stops oil companies from passing the risks of fracking and expanded oil production on to the people of San Luis Obispo County. Vote YES on Measure G.

Did You Know...

...that all dogs in the County of San Luis Obispo over the age of 4 months are required to be licensed?

If you haven't done so already, licensing your dog is easy! You can download a license application in the "Forms" section at: www.sloanimalservices.com and mail it in. You can also license your dog online at www.petdata.com, or come into the Animal Services office at 885 Oklahoma Ave. in San Luis Obispo.

WHY LICENSE YOUR DOG?

- ◆ Your dog's license is his ticket home if he is ever picked up running at large. Animal Control Officers would rather reunite you with your pet than impound him. If he's wearing a current license, they'll bring him home instead of to the shelter.
- ◆ License revenues help support Animal Services efforts to address the needs of homeless and neglected pets and to resolve our community's animal related problems.
- ◆ It's the law.

HELPFUL INFORMATION FOR LICENSING YOUR DOG

- ◆ State law requires all dogs to have a current rabies vaccination before they can be licensed. If your dog doesn't have license information on file with Animal Services, you will need to submit it with your application.
- ◆ By law, the duration of your dog's license validity cannot exceed the expiration date of his current rabies vaccine.
- ◆ The metal tag your vet gives you when your pet is vaccinated *is not* a license tag.
- ◆ License fees are significantly discounted if your dog has been spayed or neutered.

Avoid possible citations and fines by licensing your dog today!

San Luis Obispo County Fire Needs YOU!

Paid Call Firefighter (PCF) Program

CAL FIRE / San Luis Obispo County Fire is a combination department that uses both career and paid-call firefighters in reaching our mission. We refer to the Paid Call Firefighters (PCF's) because they are financially reimbursed for each call to which they respond. Paid Call Firefighters provide fire protection, emergency medical service, hazardous materials responses and other services to the communities in which they live and/or work.

Paid Call Firefighters join the fire department for opportunities to contribute to the community, learn new skills to save lives and property and for camaraderie. Many are future career firefighters honing their skills while waiting for a full time position. Others come from the community with the united mission of making a difference in the community they serve. Paid Call Firefighters (PCF's) are a cost-efficient method used to increase staffing and provide elevated levels of service.

San Luis Obispo County Fire is actively recruiting Paid Call Firefighters to help protect their community. Paid Call Firefighters respond to emergencies from their home or work. If you are interested in becoming a Paid Call Firefighter (volunteer), please contact the CAL FIRE/San Luis Obispo County Fire station closest to your home. Station information is located at www.calfireslo.org.
