SAN LUIS OBISPO COUNTY ELECTIONS ELECTION OBSERVER PANEL

PURPOSE

The purpose of the Election Observer Panel is to:

1. To provide a means for public observation of the election process for Department transparency.
2. Maintain the integrity of the election process.
3. Encourage participation and build voter confidence in the election process.

PROGRAM INTEGRITY

Ballot security is our primary concern. Violation of security by an observer will result in their removal. Should the number of observers become so great that it interferes with any of the observable election operations, the County Clerk-Recorder will limit the number of observers who will be allowed to enter areas where operations are taking place. Upon departure, observers will need to return badges, clipboards, pens, and instructions.

PROCEDURES AND GUIDELINES

For all elections held in the County of San Luis Obispo, the County will invite participation in an Election Observer Panel, under the following guidelines. These guidelines will enable the Election Observer Panel and the public to view all procedures at the polls, the vote tabulation process on election night, vote-by-mail ballot processing and counting and canvass procedures, while ensuring the elections staff will be able to maintain election integrity and the timely processing of ballots and election materials.

OBSERVATION IN GENERAL

Elections observers should be aware that in general, the law provides elections officials with some discretion in terms of how various observation laws are applied. Furthermore, how a law is applied will vary from jurisdiction to jurisdiction for reasons including, but not limited to:

- The size and configuration of the election's office.
- The staffing levels that the county elections official is able to afford.
- The number of observers who are requesting access to a particular process.

The County Clerk-Recorder requests for participating organizations to designate a representative to observe specific processes during the election period.

Organizations are responsible for assignment, conduct, and activity of their representatives.

Each organization is to provide the observer contact with the name of their designated representative(s) participating in the Observer Panel Program along with the process(es) they will be assigned to observe.

The Elections Division provides a 'Schedule of Events', overview of election operations in San Luis Obispo County, a list of polling place locations, ballot processing location, and observer rules.

The Elections Division requests observers contact our office to ensure that the operation they want to observe will be occurring. This will also assist the division in ensuring that the number of observers present will not exceed the capacity limits for the space in which the operation is occurring.

A voter or any other person shall not be prohibited from using an electronic device, including a smartphone, tablet, or other handheld device, at a polling place provided that the use of the device does not result in a violation of Section 14221, 14224, 14291, 18370, 18502, 18540, 18541, or any other provision of the Elections Code.

No bags, backpacks or large purses will be allowed.

We suggest observers bring a notepad and red pen. If you do not have a red pen, our office will provide a sanitized red pen for you.

VOTE BY MAIL PROCESSING

Vote by Mail (VBM) Ballots are returned by mail, in-person to a secure official ballot drop box, office or at a polling location.

VBM Ballots are entered by the return location and indicate the date they were received. VBM Ballots go through a number of steps to be validated and prepared for counting.

First Step - Ballot Sortation and Signature Verification

- 1) Returned vote by mail ballot envelopes are scanned on a sorter which endorses the envelope. Envelopes that are unable to be read are out sorted and handled manually.
- 2) Scanned envelopes are stored unopened in trays until they are verified.
- 3) All scanned envelope images are imported into the Election Management System, where staff that have been trained on the criteria in state regulations for verifying signatures, review the signatures to determine if they match each voter's signature on file.
- 4) If the staff determines the signatures do not match, the ballot envelope will be challenged as "In-Review".
- 5) Any ballot envelopes flagged as "In-Review" will be provided to a supervisor for further inspection. If it is still determined that the signature does not match, the challenge code will be updated to "Sig Non Match" and the elections office will outreach the voter, who will then have until 5:00 pm two days prior to the certification of the election to submit a Signature Verification Statement. If a Signature Verification Statement is received timely with a matching signature, then the ballot can be counted.

If a voter fails to sign their ballot return envelope, a challenge code of "No Signature" will be entered and the voter will be outreach to complete an Unsigned Ballot Statement which must be returned to the election's office no later than 5:00 pm two days prior to the certification of the election.

Ballots requiring either statement will remain challenged with the appropriate status until the curing statement has been received by our office and the ballot disposition is changed to "Good". If no curing statement is returned, the ballot status will remain challenged.

Second Step – Extraction

“Good” ballots are manually extracted from their return envelopes by batch. The emptied envelopes are boxed for storage, and the ballots are kept in their tray to be examined for damage and prepared for counting.

Third Step – Flattening and Inspection

A batch of ballots is given to a staff member who inspects the ballots for any tears, identifying marks such as signatures or initials, red ink and pencil. The staff member also flattens the ballot by back bending the ballot at the folds and faces the ballot the same direction. Ballots that need to be remade so that they can be read by the tabulator, are given to the lead staff for replacement ballots so that the number of ballots in a batch remains at 50.

Fourth Step – Remaking Ballots (Duplication)

Three staff members will participate as the Duplication Board. One board member will hold the original ballot and call out every vote that the voter had marked. Another board member will mark the same vote choice on a “new” ballot. The final board member will observe the original vote that was called and the corresponding “new” vote choice that is made to ensure that they match. These ballots will then be bundled in batches of 50 and will be prepared for tabulation.

OFFICIAL CANVASS TASKS

Listed below are the major components of the official canvass. These components must be performed in a particular order as identified below:

- 1) **Vote by Mail Ballots**: Vote by Mail ballots that are received timely, either by 8:00 pm on Election Day or received by mail no later than seven (7) days after Election Day and are postmarked on or before Election Day are processed and tabulated.
- 2) **1% Manual Tally**: A 1% manual tally of ballots cast in the semi-final official canvass is conducted to verify the tabulation equipment's accuracy. On Wednesday, November 16, 2022, at 1:00 p.m. staff will randomly select 1% of the polling place precincts and 1% of the batches counted on central count machines included in the semi-official results. Staff will then begin a hand tally to confirm that the manual count matches the machine count.
- 3) **Conditional Voter Registration and Provisional Ballots**: Voters that did not register by the close of registration have the option to register and vote a Conditional Voter Registration Provisional Ballot. As these voters registered after the Rosters are printed, they are processed and counted at the end of the canvass period to ensure they did not vote in another county or in San Luis Obispo County.

Provisional ballots are processed by checking the voter registration file to verify the voter's eligibility to cast the ballot, confirming that the signature on the provisional ballot envelope matches the voter's signature on their registration record, confirming the voter cast the ballot in the correct precinct, and confirming the voter has not returned a ballot by any other means. Once verified and approved for opening, the ballot is added to the official count.

- 4) **Damaged Ballots**: Damaged ballots that were unable to be processed by the tabulation equipment, which includes torn ballots, will be duplicated. Once the duplication is completed the ballots will be counted.
- 5) **Unsigned Ballot and Signature Verification Statements**: Process all Unsigned Ballot and Signature Verification Statements, validate vote by mail return status and count ballots for those voters.
- 6) **Certification of the Election**: The certification of the election occurs no later than 30 days following the election and is completed once the tasks above and all other canvass procedures are completed.
