

Environmental Testing Requisition

Instructions

- **Complete all** highlighted fields of the form.
- **Sample ID #:** You make this up, write it on the bottle and form (for example, collector's initials and the date: JS-23).
- **Account #:** Leave blank if you do not have one.
- **Reason for Testing:** Select "Routine" for regular testing, "Retest" for resampling a failed test, "Replacement" if an initial sample was rejected or invalidated, or rarely "Survey."
- **Free Residual Chlorine:** Does not apply to most testing; fill out if chlorine was measured in the field at collection.
- **Temperature Upon Receipt:** Recorded by Public Health staff.
- **Test Order 8040:** The standard water quality test for drinking water and well water monitoring.
- **Other Test Orders:** Call Laboratory for help selecting appropriate test. (805) 781-5507.
- **Custody Transfer:** To be signed at time of submission.

General Notes

- **Fill Level:** Fill sample *only* to the embossed 100 mL line; under-filling will result in rejection. Overfilling will alter the concentration of the additive in the bottle and may result in a rejected sample.
- **Temperature:** Store sample in the refrigerator (2-8°C) if it cannot be delivered immediately. It is recommended to transport the sample in a cooler on ice. **Do not freeze.**
- **Holding Time:** 30 hours (*from time of collection to time test is set up*). However, it is recommended to deliver to the Laboratory as soon as possible.
- **Delivery:** Samples accepted M–Th from 8:00 am–3:30 pm.
- **Results:** Results are primarily emailed; otherwise, faxed or USPS. If a drinking water sample is positive, the submitter will also be called.
- **Fee:** 8040 test is \$37 (until 6/30/24), \$40 (7/1/24–6/30/25).
