

COUNTY OF SAN LUIS OBISPO
DEPARTMENT OF PLANNING & BUILDING

Courtesy Notice

WEEKLY REPORT OF ENVIRONMENTAL DOCUMENTS AVAILABLE FOR REVIEW (“Courtesy Notice”)

The purpose of the environmental review process is to provide information about the environmental effects of the actions and decisions made by the County, so that these considerations become a part of the decision-making process. The following is a summary of the most recent determinations made by the County's Environmental Coordinator; these weekly Courtesy Notices can be viewed online at slocounty.ca.gov/CourtesyNotice. The purpose of this listing is to notify the public of pending actions, which may affect the environment of San Luis Obispo County. You are invited to participate in this process by reviewing and providing comments on the recommendations of the Environmental Coordinator. Your comments should be addressed to the Environmental Coordinator (address at end of document). For more information about the environmental review process, please visit: slocounty.ca.gov/EnvironmentalReview

For the week of July 1, 2024 – July 5, 2024 (*click each individual project title to view the documents on our [CSS Portal](#)*)

1. Mitigated Negative Declaration

[Huasna Road over Arroyo Grande Creek Bridge Replacement Project](#)

SCH Number: [2024070151](#)

The County of San Luis Obispo (County), with funding from the Federal Highway Administration (FHWA) and oversight by the California Department of Transportation (Caltrans), proposes to replace the existing Huasna Road over Arroyo Grande Creek Bridge (Bridge 49C0124), located at the intersection of Huasna Road and Lopez Drive approximately 2.25 miles northeast of the city of Arroyo Grande, San Luis Obispo County, California. The existing bridge was constructed in 1923 and has been classified as structurally deficient, scour critical, and has reached the end of its service life. The project purpose is to improve public safety by replacing a structure near the end of its service life. Safety will be improved by installing wider shoulders, approach guard railing, and making improvements to the existing roadway horizontal and vertical geometry.

Additional project information can be found at:
