

WEEKLY REPORT OF ENVIRONMENTAL DOCUMENTS AVAILABLE FOR REVIEW

The purpose of the environmental review process is to provide information about the environmental effects of the actions and decisions made by the County, so that environmental considerations become a part of the decision-making process. The following is a summary of the most recent determinations made by the County's Environmental Coordinator. The purpose of this listing is to notify the public of pending actions, which may affect the environment of San Luis Obispo County.

You are invited to participate in this process by reviewing and providing comments on the recommendations of the Environmental Coordinator. Your comments should be in writing and should be delivered to:

Ellen Carroll, Environmental Coordinator, Department of Planning and Building, 976 Osos Street, Room 300, San Luis Obispo, CA 93408-2040. For more information about the environmental review process, please write to the address above, call the Department of Planning and Building at (805) 781-5600, or review the environmental determination and other information on our website located at

<http://www.slocounty.ca.gov/Departments/Planning-Building.aspx>

Proposed Negative Declarations

A Negative Declaration is issued for projects that would not result in significant effects on the environment. In many cases, the project applicant has added mitigation measures to the project to reduce environmental impacts in order to qualify for a Negative Declaration. If you disagree with the issuance of a proposed Negative Declaration, you may provide comments or file a Request for Review (appeal) of the Negative Declaration. Requests for Review must be filed within two weeks of the date that the proposed Negative Declaration is posted and must address only environmental issues. There is a fee for the request. If you would like more information about this process, please contact the Environmental Coordinator.

For the week of July 26th 2018

Shandon Area

PMT2017-01858 (ED17-210)

Request by Brodiaea Inc. for a major grading permit to construct a high-density polyethylene (HDPE) lined agricultural reservoir within the existing Truesdale Vineyard to provide frost protection and irrigation (project). The reservoir will be supplied by existing polyvinyl chloride (PVC) waterlines and an existing onsite well located on the subject property. The reservoir would be approximately 380 feet wide, 370 feet long, and 26 feet deep, with a maximum capacity of 47.86 acre-feet. The project would result in the disturbance of approximately 4.63 acres (201,682 square feet), including approximately 39,900 cubic yards of cut and 39,400 cubic yards of fill, on a 393-acre parcel. The applicant proposes to balance the material onsite with no required import or export of soils.

The proposed project is within the Agriculture land use category and is located approximately 1,000 feet north of Truesdale Road, approximately 2,500 feet west of Shell Creek Road, 4.25 miles south of the community of Shandon. The site is in the Shandon-Carrizo Sub Area (North) of the North County planning area.
