## WEEKLY REPORT OF ENVIRONMENTAL DOCUMENTS AVAILABLE FOR REVIEW (“Courtesy Notice”)

The purpose of the environmental review process is to provide information about the environmental effects of the actions and decisions made by the County, so that these considerations become a part of the decision-making process. The following is a summary of the most recent determinations made by the County’s Environmental Coordinator; these weekly Courtesy Notices can be viewed online at [slocounty.ca.gov/CourtesyNotice](http://slocounty.ca.gov/CourtesyNotice). The purpose of this listing is to notify the public of pending actions, which may affect the environment of San Luis Obispo County. You are invited to participate in this process by reviewing and providing comments on the recommendations of the Environmental Coordinator. Your comments should be addressed to the Environmental Coordinator (address at end of document). For more information about the environmental review process, please visit: [slocounty.ca.gov/EnvironmentalReview](http://slocounty.ca.gov/EnvironmentalReview)

### Proposed Negative Declarations

A Negative Declaration is issued for projects that would not result in significant effects on the environment. In many cases, the project applicant has added mitigation measures to the project to reduce environmental impacts in order to qualify for a Negative Declaration. If you disagree with the issuance of a proposed Negative Declaration, you may provide comments or file a Request for Review (appeal) of the Negative Declaration. Requests for Review must be filed within two weeks of the date that the proposed Negative Declaration is posted and must address only environmental issues. There is a fee for the request. If you would like more information about this process, please contact the Environmental Coordinator.

**For the week of May 8, 2022– May 12, 2022** (*click each individual project title to view the documents on our [CSS Portal](#)*)

Mitigated Negative Declaration

**[Canna Organic Farms Minor Use Permit ED Number 21-019-PL, DRC2019-0049](#)**

SCH Number: **[2022030722](#)**

A (Mitigated Negative Declaration for the following project: by Canna Organic Farms request a Minor Use Permit (DRC2019-00049) to establish 22,000 square feet (sf) of indoor (mixed-light) cannabis canopy, 5,500 sf of ancillary cannabis nursery canopy, 1,000 sf of ancillary processing, ancillary transport of cannabis grown on-site, as well as other related site improvements that include two new driveway approaches, portable restrooms, security lighting, a septic tank and leach field system, an equipment storage shed, a 320 sf cannabis product storage container, a compost area, two water storage tanks, a parking area, and security fencing. Indoor (mixed light) ancillary cannabis nursery products would be grown within six interconnected greenhouses with a total floor area of 6,880 sf. Five of the greenhouses would be 1,200 sf in floor area and would support 1,000 square feet of nursery canopy per building; a single the 880 sf greenhouse would support 500 square feet of nursery canopy, with remaining areas consisting of walkways. The nursery greenhouses would also be constructed with concrete footings and plants would be planted directly into the ground. Ancillary nursery products would be used to germinate and propagate seeds to support on-site cultivation activities and no immature plants would be transferred off-site.
