## Footnotes FY 2011-2012

- 1 ) The department wishes to recover the full cost of service (including consultant cost) for all major projects. If the processing cost of an application, including environmental review or administering the conditions of approval, will be substantially in excess of the fee/deposit, the applicant may be notified before the project is scheduled for public hearing that the total processing cost will be determined by full cost recovery techniques and that additional charges (invoices) may be forthcoming. Invoices not paid within 30 days of billing will have all processing of the project stop until the invoice is paid in full. This option can also be used where the department determines that processing costs will be substantially less than the original fee/deposit. In this case, the unused portion of the fee/deposit will be refunded.
- 2 ) The Department wishes to recover the full cost of staff time required to resolve land use violation cases that do not require issuance of a land use permit. The Department shall notify the property owner at the time a violation is verified to exist. The total administrative cost of resolving the enforcement case will be determined by full cost recovery techniques and the property owner will be billed accordingly.
- 3 ) A refund of any unused portion of fees for withdrawn or partially completed projects shall be determined by the Planning Director based on code requirements and/or an appraisal of the cost of staff work up to the time the project is withdrawn. Any fee erroneously paid or collected will be refunded in full or credited in full to the correct fee. All requests for refunds shall be in writing from the property owner or designee as listed on the application as originally filed with the department, with the refund paid only to that owner.
- 4 ) The Planning Director is delegated the authority to grant fee waiver requests for land use and construction permits on development projects that are proposed by volunteer, community and nonprofit organizations for the benefit of an entire community when the project satisfies the following criteria. This policy does not apply to requests for general plan amendments.
  - a. the proposed project will be available for use by the public at-large and it is likely that the project will be used or will benefit more than residents of the immediate vicinity; and
  - b. the project will be of obvious public benefit. Evidence of public benefit may include but is not limited to:
    1. the project meets a need previously identified or recognized by the Board of Supervisors.
    2. the project replaces another facility that previously provided benefit.
    3. the project provides a facility not presently available in the community.
    4. the project has generated substantial, obvious community support.
    5. the project would reduce other County costs or increase other County revenues.
  - c. The fee (s) to be waived will not exceed a total of \$5,000.
  - d. The Planning Director decisions may be appealed in writing within ten days to the Board of Supervisors, whose decision will be
  - e. Notwithstanding any other provision of this fee schedule, the Board of Supervisors retains the authority to consider other fee waiver requests when it considers such waivers to be equitable and in the public interest.

- 6 ) The Planning Director may waive the appeal fee in the County Coastal Zone for projects that meet Department policy pursuant to Coastal Zone Land Use Ordinance Section 23.01.043 and the California Code of Regulations Section 13573 and the Public Resources Code Section 30603.
- 7 ) Where dis-establishment of an agricultural preserve is requested concurrently with a General Plan amendment application of the property, this fee will not be collected and the General Plan amendment fee will instead cover the costs.

The pre-application site visit fee shall be charged when an applicant requests a site visit or the Planning Director determines a site visit is necessary to properly assess the applicant's proposal. As an incentive, these fees may be waived by the Planning and Building Director for projects that provide facilities that will benefit the community-at-large, such as but not limited to recycling centers, day care centers, schools and affordable housing projects (on a project-wide basis).

If an application is submitted within six months of the pre-application meeting, the pre-application fees will be applied to the application processing fees.
