

Cambria Community Services District

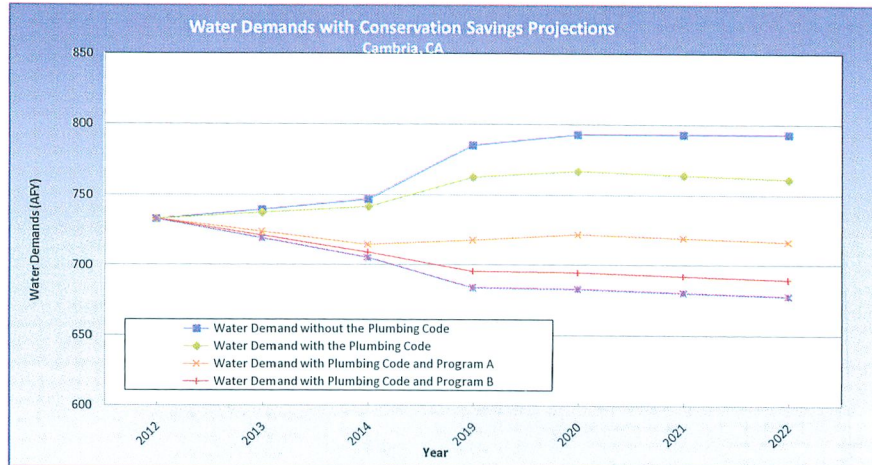

Biennial RMS Edits
from January 17, 2013 CCSD Board meeting review

February 6, 2013
Robert Gresens, P.E.
CCSD District Engineer

Key Findings

- CCSD production pumping is down about 85% in past five years
- CCSD is expanding upon its adopted year 2020 5% reduction water reduction goal to about 10%.
- Expanded conservation program to save about 70 to 75 acre-feet per year by 2020.
- CCSD would continue to offset demands from any future connections by water conservation.

Conservation Modeling Results

As revised by MWM 2/6/2013

Water Supply Level of Severity Revision

- 1/17/2013 CCSD Board meeting policy direction is to recommend LOS I
- Any future connections would continue to abide by existing Local Coastal Program (North Coast Area Plan), Cambria communitywide condition 4.B. (I.e., offset any future demands by water conservation.)
