

Point-In-Time Count 2024

The Point-in-Time Count is a comprehensive census of people experiencing homelessness in San Luis Obispo County on a single night.

In 2024, the SLO County Point-in-Time (PIT) Count was a census focused on completing surveys with as many individuals experiencing homelessness as possible. This preferred methodology increased the reliability of the collected data.

Based on data collected on the night of January 22, the 2024 PIT Count shows an encouraging trend in reducing local homelessness.

The SLO County PIT Count captures:

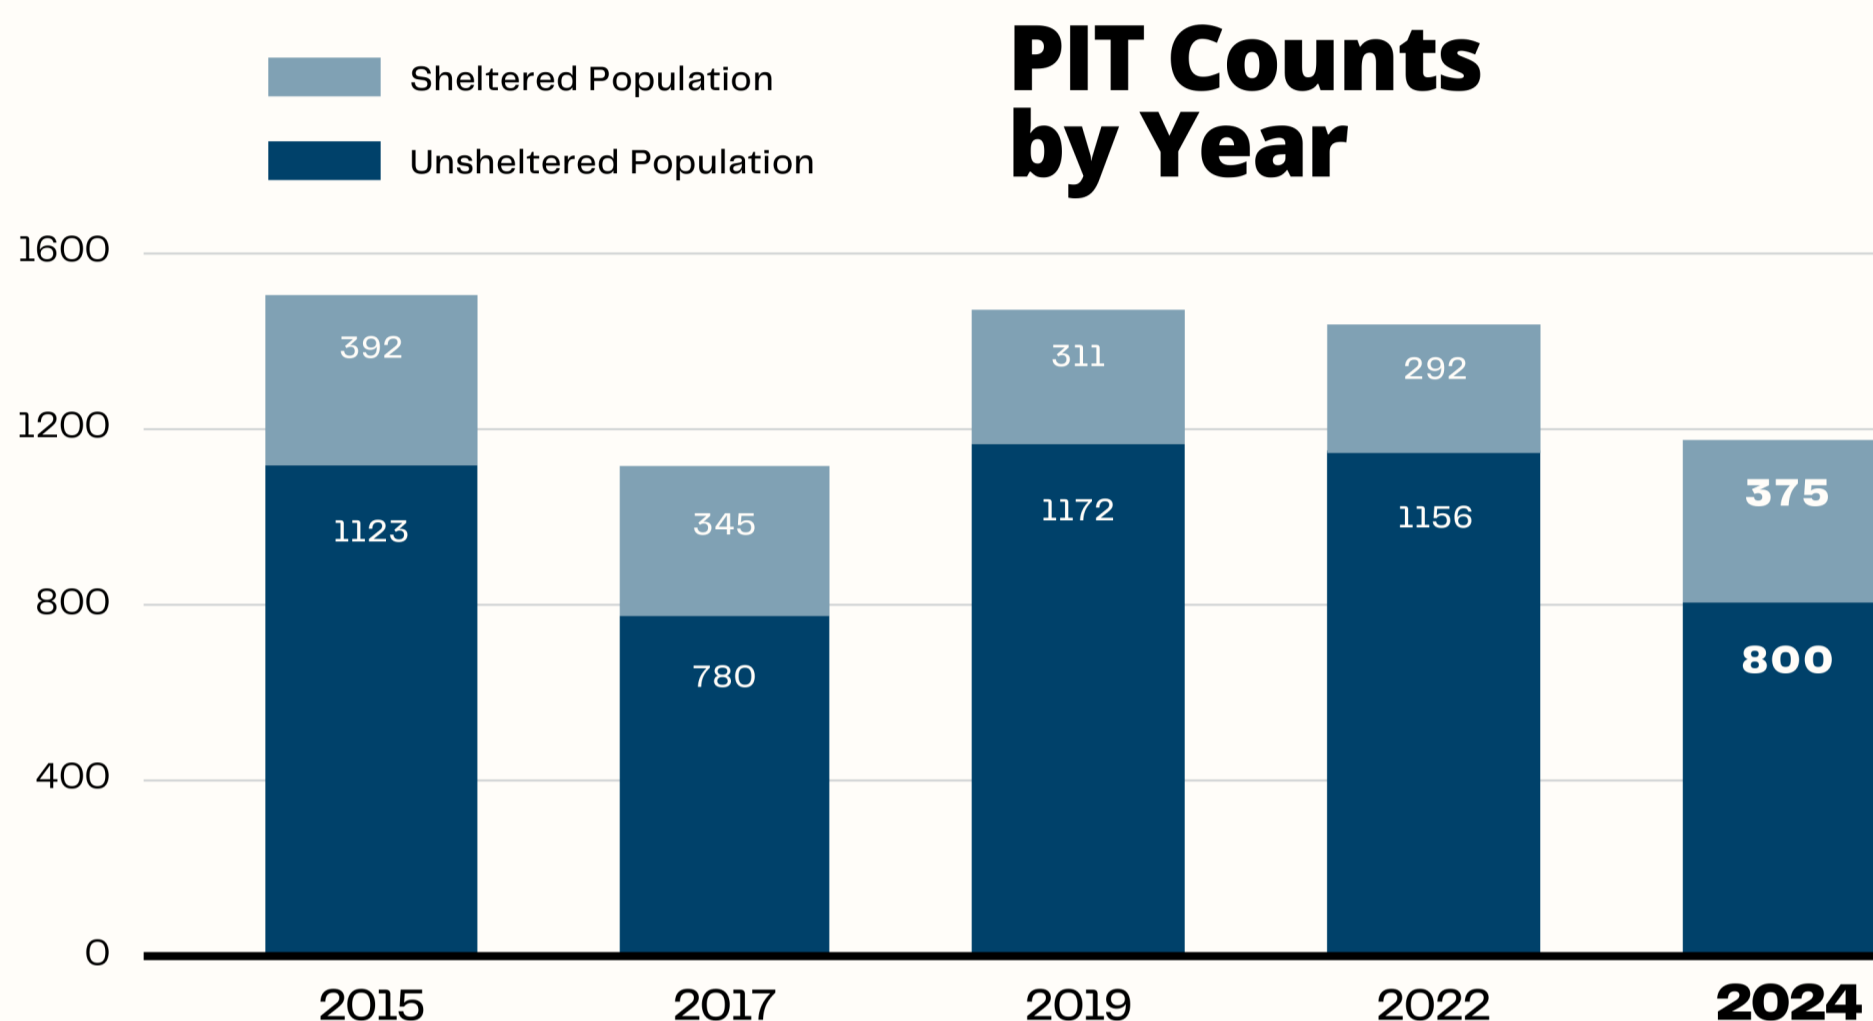

- 1 The **Sheltered Count** included all individuals residing in emergency shelters or transitional housing.
- 2 The **Unsheltered Count** included all individuals residing in locations not meant for habitation such as vehicles, outdoors, streets, sidewalks or homemade structures.
